THE CANARIAN CYCLING PORTAL

Castaño Bajo No 9 , E 35300 St. Brigida , tel 0034 639781658

. Gran Canaria's Gran Fondo del Sol marathon has emerged as popular season opener, because it can be perfectly combined with a spring training camp and, what's more, it offers a great opportunity to vacation with the entire family thanks to Canary-Bike's great package deals.

If one had to describe the hospitality, professionalism and care of Gran Canaria's committed Cycling tourism expert and organiser Petra Wonisch in just one word, the expression 'all-around-carefree-package' would probably apply best. With Petra, one is in good hands. "People feel comfortable with us, because they realise from the very first minute when we pick them up at the airport that we do care about them and that we cater to their needs", the Canary-Bike owner says. „That's why they all come back and bring their families and friends along. That is also the reason why our marathon is growing so rapidly. The participants will double from the first to the second year. With our valorised attractive one week programme we hope to attract even more cyclists and their families. We have extended our travel package and now also offer flights I would say indeed that we offer the all-around-carefree-package.”

4 star Bike & Wellness Hotel San Augustin

Gran Canaria's Cycling and Wellness Hotel San Augustin, an oasis of comfort, forms the luxurious base camp for an action-packed training camp. For the marathon week, Petra has negotiated a bargain price for the deluxe bike accommodation: 299 Euros per person staying in a family room (2 bed

rooms, one bath) including half board with a rich athletes' buffet, picnic and water service for the ride, bike cellar and mechanic service, route maps, support by sports director, daily side activities like Pilates and Yoga taster course, bike academy, lectures on current topics. One week accommodation in a triple bedroom costs 349 Euros per person, in a double bedroom 399 Euros per person. Extension days are possible.

Those who prefer to explore the island in a group can book an additional tour package for 159 Euros. This includes five guided tours with pro riders and professional trainers.

Companion Programme

Petra Wonisch has also thought of companions who do not enjoy Cycling as much as their partners. Spouses can join an awesome companion programme with wellness treatments, excursions across the island, hiking, taster golfing, scuba diving classes, a shopping trip to Las Palmas including a stroll through the picturesque old part of town, and a visit of a traditional 'bodega' with wine tasting. "Now there is no more excuse leaving your wife or girl-friend at home", she says.
